*Tobacco Products and Related Products*

**The draft Act amending the Restriction on the Use of Tobacco Products and Related Products Act**

The draft of the Act amending the Restriction on the Use of Tobacco Products and Related Products Act in Article 3 of Restriction on the Use of Tobacco Products and Related Products Act (hereinafter: ZOUTPI) supplements the definitions of electronic cigarettes and refill containers, so that they also refer to nicotine-free products. All requirements of the directive and ZOUTPI (Article 26) thus also apply to nicotine-free electronic cigarettes and to nicotine-free refill containers. In Article 3 of the ZOUTPI, the definition of herbal product for smoking is supplemented. In addition to the combustion process, it also includes the heating process. In the third paragraph of Article 26 of the ZOUTPI, a provision is added so that the liquid or any other nicotine or nicotine-free filler in electronic cigarettes or refill containers shall not contain any flavourings, except for the taste and smell of tobacco or menthol. Flavorings or substances that will be allowed in electronic cigarettes and refill containers will be determined by the Minister of Health within three months of the Act entering into force.

**DEAS 44:2023 Milled Maize (corn) products - Specification**

26/01/2024

		<p>This draft East African Standard specifies requirements, sampling and test methods for whole maize meal, granulated maize meal, sifted maize meal, maize grits and maize flour from the grains of common maize (<i>Zea mays</i>L.) intended for human consumption. This standard does not apply to fortified milled maize (corn) products and maize grits intended for brewing, manufacturing of starch and any other industrial use.</p>	
<a href="#">G/TBT/N/USA/2070</a> 27/11/2023	United States of America	<p><i>Decabromodiphenyl ether and phenol, isopropylated phosphate (3:1); Environmental protection (ICS code(s): 13.020); Domestic safety (ICS code(s): 13.120); Production in the chemical industry (ICS code(s): 71.020); Products of the chemical industry (ICS code(s): 71.020);</i></p> <p><b>Decabromodiphenyl Ether and Phenol, Isopropylated Phosphate (3:1); Revision to the Regulation of Persistent, Bioaccumulative, and Toxic Chemicals Under the Toxic Substances Control Act (TSCA)</b></p> <p>Proposed rule - The Environmental Protection Agency (EPA) is proposing revisions to the regulations for decabromodiphenyl ether (decaBDE) and phenol, isopropylated phosphate (3:1) (PIP (3:1)), two of the five persistent, bioaccumulative, and toxic (PBT) chemicals addressed in final rules issued under the Toxic Substances Control Act (TSCA) in January 2021. After receiving additional comments following the issuance of the 2021 PBT final rules, the Agency has determined that revisions to the decaBDE and PIP (3:1) regulations are necessary to address implementation issues and to reduce further exposures. As required under TSCA, these proposed requirements would, if finalized, reduce the potential for exposures to humans and the environment to decaBDE and PIP (3:1) to the extent practicable. The Agency is not proposing to revise the existing regulations for the other three PBT chemicals (2,4,6-TTBP, HCBP, and PCTP) at this time.</p>	08/01/2024

*Type 1 hazardous substances (only for the items under the FDA's responsibility)*

28/01/2024

**Draft Notification of the Ministry of Public Health regarding criteria, procedures and conditions for having in possession of type 1 hazardous substances under the responsibility of the Food and Drug Administration for refilling at refill station B.E. ...**

Description of content:

(1) Prescribing definition of refilling hazardous substances at refill station which is possession of type 1 hazardous substances (only the liquid cleaning products) for sale by transferring/changing container of hazardous substances products from a bulk product container to a refillable container at the refill station.

(2) Prior to going through refill process notifying, such hazardous substances must have been performed type 1 hazardous substances fact notifying. Moreover, the refill product's active ingredients shall be substances in the chemical groups as follows:

- amphoteric surfactants;
- anionic surfactants;
- nonionic surfactants except nonylphenol ethoxylate;
- amine oxides.

(3) Chapter 1: Setting the criteria, procedures and conditions of notification of the fact relating to having in possession of type 1 hazardous substances for sale by refilling activity as follows:

- Possessors are required to notify the fact relating to the refill products and the address of refill station to the authority before doing the business;

- In case of mobile refill station, possessors are provided additional information of the storage location and the motor vehicle.

(4) Chapter 2: Setting the guidelines for premise and equipment. They should be cleaned and sanitized and installations involved in preparations and controls should be checked before each use, to make sure that they function as expected and all equipment is maintained clean and in good order.

(5) Chapter 3: Setting the labeling requirements that apply to refill hazardous substances products.

(6) Chapter 4: Setting the characteristic of refillable hazardous substances containers.
