G/TBT/N/KEN/1715 25/11/2024	Kenya	<p><i>35.240 Applications of information technology</i></p> <p>DKS 3016-1: 2024 National addressing system – Part 1: Classifications and requirements</p> <p>This part 1 of KS 3016 provides a framework for classification of addresses according to address elements and the order in which the elements are arranged. It classifies all addresses into a simple, complete categories of address classes. This standard prescribes a postcodes format and provides requirements for signage.</p>	24/01/2025
G/TBT/N/EU/1098 26/11/2024	European Union	<p><i>Firefighting foams containing per- and polyfluoroalkyl substances (PFAS)</i></p> <p>Draft Commission Regulation amending Annex XVII to Regulation (EC) No 1907/2006 of the European Parliament and of the Council as regards per- and polyfluoroalkyl substances in firefighting foams</p> <p>This draft Regulation would introduce a new entry to Annex XVII to Regulation (EC) No 1907/2006. It would prohibit the placing on the market and use of per- and polyfluoroalkyl substances (PFAS) in firefighting foams and in firefighting foams concentrates, including ready-to-use portable fire extinguishers. Specific transitional periods are proposed for different applications. In addition, several measures are introduced to limit the environmental emissions of PFAS from firefighting foams during the transitional period.</p>	25/01/2025
G/TBT/N/IND/354 26/11/2024	India	<p><i>Stainless Steel Pipes and Tubes.</i></p> <p>Stainless Steel Pipes and Tubes (Quality Control) Order, 2024</p> <p>Stainless Steel Pipes and Tubes (Quality Control) Order, 2024 Stainless Steel Seamless Pipes and Tubes: Seamless pipe is manufactured by extruding the metal to the desired length; it does not have any joint in its cross-section through-out its length. In Seamless pipe, there are no welding or joints and is manufactured from solid round billets. It is primarily used in High-pressure applications such as Hydrocarbon Industries & Refineries, Oil & Gas Exploration & Drilling, Oil & Gas Transportation and Air and Hydraulic cylinders, Bearings, Boilers, and Automobiles etc. Stainless Steel Welded Pipes and Tubes: A welded stainless-steel tube is produced through roll-forming strips or sheets of stainless steel into a tube shape and then welding the seam longitudinally. Welded tubing can be accomplished either by hot-forming and cold-forming processes. Due to high corrosion resistance these are primarily used in petroleum and natural gas, chemical and petrochemical, shipbuilding and paper industry etc.</p>

Ukraine

Security feature that provides protection against unauthorized access to unit packet of tobacco products

25/01/2025

Draft Resolution of the Cabinet of Ministers of Ukraine “On Approval of Technical Requirements (Standards) for Security Feature Providing Protection Against Unauthorized Access to Unit Packet of Tobacco Products”

The draft Resolution provides for approval of technical requirements (standards) for security features that ensures protection against unauthorized access to unit packet of tobacco products, which include the following provisions: 1) the composition and quantity of authentication elements to be used in security feature;

2) the method of applying security feature to unit packet of tobacco products;

3) the manufacturing process of security feature; 4) the types of authentication elements included in security feature. Technical requirements have been developed based on Directive 2014/40/EU of the European Parliament and of the Council of 3 April 2014 on the approximation of the laws, regulations and administrative provisions of the Member States concerning the manufacture, presentation and sale of tobacco and related products and repealing Directive 2001/37/EC and Commission Implementing Decision (EU) 2018/576 of 15 December 2017 on technical standards for security features applied to tobacco products.

Belize

Prepackaged and prepared foods (ICS code(s): 67.230) This standard applies to the labelling of all pre-packaged foods to be offered to the consumer or for catering purposes.

26/01/2025

DRAFT BELIZE STANDARD SPECIFICATION FOR LABELLING PART 3: LABELLING OF PREPACKAGED FOOD (REVISION)

This standard has been revised in an effort to align with best practices as well as to prevent fraud and deception arising from misleading labelling, as well as to provide adequate information to the consumer or user of prepackaged foods. This revised standard includes inclusion of nutritional facts; allergen labelling and language requirements for products labelled in Spanish and English. All manufacturers, importers, exporters, distributors and other entities engaged in the production and or trade of pre-packaged foods in Belize shall comply with the requirements of this standard. It is expected that this standard will assist Belize manufacturers in meeting the labelling requirements of regional and extra-regional markets.

Metrology and measurement in general (ICS code: 17.020)

26/01/2025

Reglamento Técnico Salvadoreño -RTS- 17.03.01:24 ETILÓMETROS UTILIZADOS PARA MEDICIÓN DE ETANOL A TRAVÉS DE AIRE ESPIRADO. REQUISITOS TÉCNICOS, METROLÓGICOS Y ADMINISTRATIVOS (Salvadoran Technical Regulation (RTS) No. 17.03.01:24: "Alcohol meters used to measure ethanol in exhaled air. Technical, metrological and administrative requirements") (21 pages, in Spanish)

		<p>The notified Salvadoran Technical Regulation sets out the technical, metrological and administrative requirements to be met by alcohol meters that automatically determine the concentration of ethanol in the blood by measuring its mass concentration in exhaled air, for punitive purposes or otherwise. It applies to alcohol meters marketed in the country that automatically determine the concentration of ethanol in the blood by measuring its mass concentration in exhaled air, for punitive purposes or otherwise.</p>	
G/TBT/N/QAT/701 27/11/2024	Qatar	<p><i>Domestic electrical appliances in general (ICS code(s): 97.030)</i></p> <p>Household Refrigerating and freezers Appliances - Energy performance and Testing Requirements</p> <p>This technical regulation covers brand new household refrigerators, freezers, and refrigerator-freezers having a capacity of not more than 1,500 liters.</p>	26/01/2025
G/TBT/N/ISR/1360 28/11/2024	Israel	<p><i>Calcium carbonate for treatment of water intended for human consumption (HS code(s): 283650); (ICS code(s): 71.100.80)</i></p> <p>SI 5438 part 12 - Chemicals used for treatment of water intended for human consumption: Calcium carbonate</p> <p>Revision of the Mandatory Standard SI 5438 part 12 deals with calcium carbonate used to treat water intended for human consumption. This proposed standard revision adopts the European Standard EN 1018: June 2021, with a few changes that appear in the standard's Hebrew section. The major differences between the old version and this new revised draft standard are as follows: Adds to Section 7.3, dealing with transportation regulation and labelling, a requirement that users shall be aware of incompatibilities between transported products; Adds to Section 7.4, dealing with marking, a new marking requirement that applies also to the accompanying documents; Changes the composition requirements for porous products (Table 1) and their impurities (Table 2). After completion of the revision, the requirements of all sections of the revised standard will be mandatory, except in the national deviations to Section 7.4, the addition of the word "for drinking water treatment."</p>	27/01/2025
G/TBT/N/QAT/702 28/11/2024	Qatar	<p><i>Laundry appliances (ICS code(s): 97.060)</i></p> <p>Electrical Clothes Washing Machines - Energy and water performance requirements</p> <p>This technical regulation specifies the performance and energy requirements for electric clothes washing machines with a capacity up to 25 kg, in order that it may carry a valid energy efficiency label.</p>	27/01/2025
G/TBT/N/JPN/844 29/11/2024	Japan	<p><i>Isopropyl ester of 2-hydroxy-4-(methylthio) butanoic acid as a feed additive.</i></p> <p>Proposed revision of Ministerial Ordinance on the Specifications and Standards of Feeds and Feed Additives.</p> <p>MAFF will designate Isopropyl ester of 2-hydroxy-4-(methylthio) butanoic acid as a feed additive and set the technical regulations and specifications for feed and feed additives to "Ministerial Ordinance on the Specifications and Standards of Feeds and Feed Additives" (Ordinance No. 35 of 24 July 1976 of the Ministry of Agriculture and Forestry).</p>

Proposed establishment of the “Enforcement Rule of the Digital Medical Products Act”

The purpose of this Rule is to prescribe matters mandated by the Digital Medical Products Act and the Enforcement Decree of that Act for its enactment and enforcement. The details are as follows:

- A. the scope of and classification standards for digital technology
- B. permission (certification and reporting) considering the characteristics of digital medical devices
- C. clinical trials (clinical performance tests)
- D. cancellation or correction order regarding confirmation/investigation of compliance with quality control standards
- E. labeling, follow-up management methods and procedures
- F. certification of excellent management systems
- G. manufacturing and import of medicines combined with digital technology
- H. impact assessment for supporting the development of digital medical products
- I. matters regarding fees for digital medical devices
