G/TBT/N/IND/323 04/12/20203	India	<i>Air Cooler and Air Filters</i> Air Cooler and Air Filters (Quality Control) Order, 2023 Air Cooler and Air Filters (Quality Control) Order, 2023 Air cooler is a device that reduces the temperature of the air in a room by drawing it in and filtering it through water. Air coolers work on the evaporative cooling principle, where water evaporation is used to cool the air. Unlike air coolers that put moisture into the air, air conditioners actually remove moisture. Air filters are devices used to remove airborne particles and pollutants that are hazardous to health and the ecosystem. These devices utilize a filter media, which captures those particles on its upstream side. Air set in motion by the fan passes through a system of filters and purified air is released to the outside.	02/02/2024

**Draft Resolution of the Cabinet of Ministers of Ukraine
"On Amendments to the Resolution of the Cabinet of
Ministers of Ukraine No. 297 of 16 March 2022"**

In accordance with the Law of Ukraine No 2775-IX "On Amendments to Certain Laws of Ukraine on Improving State Regulation in the Sphere of Pesticides and Agrochemicals" of November 16, 2022 from 01 January 2024 new requirements for information that should be indicated on the label of pesticides and agrochemicals will be applied in Ukraine. At the same time, the Law provides for the possibility of placing on the market of pesticides and agrochemicals with old labels until their expiry date. Accordingly, the draft Resolution envisages amendments to the Cabinet Resolution of 16 March 2022 No. 297 "Some Issues of Traffic, Storage, Use and Trade of Phytosanitary Products and Agricultural Chemicals", which propose to regulate the issues related to the trade in pesticides and agricultural chemicals, including their import, from 1 January 2024, by establishing the possibility of circulation of pesticides and agrochemicals labelled in accordance with the requirements of the legislation on pesticides and agrochemicals from 31 December 2023 until their expiry date. Thus, starting from 01 January 2024, agrochemicals permitted for imports into the customs territory of Ukraine, production, trade, use and advertising without their state registration in accordance with the Law of Ukraine "On Pesticides and Agrochemicals", as well as pesticides and agrochemicals registered in the State Register of Pesticides and Agrochemicals as of 31 December 2023 and permitted for use in Ukraine, may be imported into the customs territory of Ukraine and/or circulated in Ukraine until their expiry date, provided that their packaging and labelling comply with

the requirements of the legislation on pesticides and agrochemicals in force as of 31 December 31 December 2023.

Improvement of regulations related to submission for Marketing Authorization (revision of Article 4 of the regulation) In the case of contracted manufacturing during the entire process, submission of evaluation data for GMP will be exempted, and in the case of national essential medicine for which there are no alternatives, some of the submission can be replaced with a letter of explanation when applying for authorization, allowing to implement rapid approval and minimize gaps in treatment for Korean patients. B. Clarification of submission for approval of IND (revision of Article 24 of the regulation, Form No. 23) When approving investigational new drug (IND) application, it was clearly stated so that the data necessary to be evaluated whether the investigational drug complies with GMP and GCP can be submitted. C. Improvement of report on drug shortages (revision of Article 49 of the regulation, Appendix 8 II. No. 27) The deadline for reporting on drug shortages will be set to 180 days in advance, and even in the case of shortages, it will be required to be reported so that the government can proactively respond to the shortages, the standards for	06/02/2024

administrative dispositions in case of non-reporting will be strengthened to increase the effectiveness of the report.

D. Improvement of procedures related to items in the patent list (revision of Article 62-4 and Article 62-11 of the regulation, new establishment of Form No. 59-8)

When changing matters listed in the patent list, minor matters that do not require a procedure to have public consultation from stakeholders will be regulated and documents and procedures to be submitted when reporting the occurrence of reasons for the expiration of prior marketing approval will be prepared.

E. Modification of administrative dispositions related to safety management personnel (Revision of [Appendix 8] of the regulation, II. No. 23, 29)

In cases where a safety management manager is not appointed and when changes or cancellations are not reported, the disposal standard has been modified into suspension of marketing business. F.
