G/TBT/N/AUS/165 18/12/2023	Australia	<p><i>Medicines</i></p> <p>Consultation paper – Proposed quality standards for MDMA and psilocybin</p> <p>The Therapeutic Goods Administration (TGA) administers Australia's national system of controls for the quality, safety, efficacy and timely availability of therapeutic goods in Australia. There are provisions under the Therapeutic Goods Act 1989 to establish quality standards for therapeutic goods. These standards, known as TGOs, can specify things such as procedures to be carried out in the manufacture of the goods, labelling, or other requirements. Once approved, TGOs are registered as legislative instruments on the Federal Register of Legislation in Australia. The TGA has developed two new quality standards that will be registered as legislative instruments on the Federal Register of Legislation in Australia as Therapeutic Goods Orders (TGOs): Standard for MDMA hydrochloride, and Standard for Psilocybin. The TGA is undertaking a public consultation between Friday 8 December 2023 to Wednesday 31 January 2024 to seek feedback on the appropriateness of the requirements in the TGOs. Until 1 July 2023 Australian patients only had access to therapy with ,4-methylenedioxy-N-methylamphetamine hydrochloride (MDMA) and psilocybin as part of clinical trials. Effective from 1 July 2023, the TGA amended the Poisons Standard to add MDMA and psilocybin to Schedule 8 (S8), permitting their use as Controlled Drugs only for the treatment of post-traumatic stress disorder (PTSD) and treatment resistant depression (TRD), respectively. Only authorised medical practitioners are permitted to prescribe S8 MDMA and psilocybin. There are no quality standards such as pharmacopoeial monographs or TGOs for MDMA or psilocybin. The TGA has developed manufacturing and testing requirements that will form the basis of proposed new TGOs for each of these medicines.</p>	31/01/2024

renewed in accordance with Regulation (EC) No 1107/2009. EU Member States shall withdraw authorisations for plant protection products containing mepanipyrim as an active substance. The non-renewal of approval is based on the first evaluation of the substance for use as a pesticide active substance in the EU under Regulation (EC) No 1107/2009. The substance was formerly assessed and approved under Directive 91/414/ EEC. This decision only concerns the placing on the market of this substance and plant protection products containing it. Following non-approval and the expiry of all grace periods for stocks of products containing this substance, separate action may be taken on MRLs and a separate notification will be made in accordance with SPS procedures.

G/TBT/N/CHE/284 18/12/2023	Switzerland	<p><i>PHARMACEUTICAL PRODUCTS (HS code(s): 30); Generalities. Terminology. Standardization. Documentation (ICS code(s): 01); Natural and applied sciences (ICS code(s): 07); Health care technology (ICS code(s): 11)</i></p> <p>Revision of the Federal Act on Medicinal Products and Medical Devices (Therapeutic Products Act, TPA)</p> <p>The Therapeutic Products Act, which has been in force since 2002, is currently being revised . Topics which are affected: Advanced therapy medicinal products (ATMPs) Digitalisation in the prescription, dispensing and use of therapeutic products Veterinary medicinal products Swiss law is harmonised with EU law in order to reduce technical barriers to trade. The proposed changes are intended to bring greater clarity and certainty to the authorisation of advanced therapy medicinal products (ATMPs). In the area of veterinary medicinal products, a legal basis is created to prohibit the use of certain antimicrobial medicinal products (prevention of antibiotic resistance), to authorise innovative therapies and to permit authorisations to be valid for an unlimited period.</p>	22/03/2024
G/TBT/N/USA/2077 18/12/2023	United States of America	<p><i>Tris(2-chloroethyl) Phosphate (TCEP), Environmental protection (ICS code(s): 13.020); Protection against dangerous goods (ICS code(s): 13.300); Production in the chemical industry (ICS code(s): 71.020); Products of the chemical industry (ICS code(s): 71.100)</i></p> <p>Tris(2-chloroethyl) Phosphate (TCEP); Draft Risk Evaluation Under the Toxic Substances Control Act (TSCA); Letter Peer Review; Notice of Availability, Public Meeting and Request for Comment</p> <p>Notice - The Environmental Protection Agency (EPA) is announcing the availability of and soliciting public comment on the document titled: "2023 Draft Risk Evaluation for Tris(2-chloroethyl) Phosphate (TCEP)" and related draft charge questions. EPA will be submitting the Draft Risk Evaluation and public comments to peer reviewers who will consider the approach and methodologies utilized. The letter peer review will include review of the analysis of physical-chemical properties, the fate of TCEP in the environment, releases of TCEP to the environment,</p>	13/02/2024

environmental hazard and risk characterization for terrestrial and aquatic species, and human health hazard and risk characterization for workers, consumers, and the general population. The letter peer review is expected to begin on 13 March 2024, and end on 12 April 2024. A preparatory virtual public meeting will be held on 5 March 2024, for reviewers and the public to comment on and ask questions regarding the scope and clarity of the draft charge questions. Feedback from the letter peer review will be considered in the development of the final TCEP risk evaluation. EPA will hold a virtual public meeting 5 March 2024, 1:00 pm to 4:00 pm Eastern Time. To receive the webcast meeting link and audio teleconference information before the meeting, you must register by 5 pm Eastern Time on 1 March 2024. To allow EPA time to process your request for special accommodations, please submit the request by 23 February 2024.

Draft Ministry of Public Health (MOPH) Notification, No. ... B.E. (...) issued by virtue of the Food Act B.E. 2522 entitled “ The Display of Nutrition Symbol on Food Label (No.2)”

The Ministry of Public Health (MOPH) is proposing to revise the MOPH notification concerning " The Display of Nutrition Symbol on Food Label" as follows: Clause 1. Clause 2 of the notification of the Ministry of Public Health (No.373) B.E. 2559 entitled “The Display of Nutrition Symbol on Food Label” dated 12th January B.E. 2559 (2016) shall be repealed and replaced with the following texts: “Clause 2 For any food Manufacturer and Importer for sale, or Food Distributor intending to display the nutrition symbol on food label, the food product attached by such label shall be initially inspected and certified by the Institute of Nutrition of Mahidol University, or other relevant agencies authorized by the Committee of Strategy mobilization in Building Linkages between Food and Nutrition for Good Quality of Life under the National Food Committee. After inspection and certification, the nutrition symbol subsequently can be displayed on food label.” Clause 2. This Notification shall come into force as from the day following date of its publication in the Government Gazette onwards.

HS 22.04, 22.05, 22.06, 22.07, 22.08, 24.01, 24.02, 24.03 (listed in Annex I of the Presidential Decree No. 216/19, of July 15 and Executive Decree No. 64/23 of May 12

19/12/2023

Obligation to affix high security tax stamps on medicines, beverages, alcoholic liquids, tobacco and its manufactured substitutes and other products listed in Annex I of the Decree.

Considering that the smuggling and counterfeiting of alcoholic beverages and liquids, as well as tobacco and its manufactured substitutes have become a worldwide problem, also affecting the Republic of Angola. Given that such illegal practices can deprive the State of an important source of revenue and pose a threat to public health and well-being of citizens. There is a need to implement the High Security Tax Stamp Program, which appears to be a fundamental step to ensure the fight against counterfeit products, the collection of tax revenue, as well as ensuring the reliability of goods and products in the national market.

G/TBT/N/UKR/279 20/12/2023	Ukraine <i>non-food products</i> the draft Law of Ukraine "On Amendments to Certain Laws of Ukraine on Improving the State Market Supervision and Technical Regulation System in Accordance with the Requirements of the European Union" Currently, Ukraine has in force the Law of Ukraine No. 2735-VI "On State Market Supervision and Control of Non-Food Products" of 02 December 2010 (as amended) that is based on the provisions of the Decision No 768/2008/EC of the European Parliament and of the Council of 09 July 2008 on a common framework for the marketing of products, and repealing Council Decision 93/465/EEC as well as Regulation (EC) No 765/2008 of the European Parliament and of the Council of 09 July 2008 setting out the requirements for accreditation and market surveillance relating to the marketing of products and repealing Regulation (EEC) No 339/93. Given that the EU market surveillance legislation has been revised and Regulation (EU) 2019/1020 of the European Parliament and of the Council of 20 June 2019 on market surveillance and compliance of products and amending Directive 2004/42/EC and Regulations (EC) No 765/2008 and (EU) No 305/2011 has been adopted, the proposed draft Law aims to implement certain provisions of Regulation (EU) 2019/1020 into the Ukraine's legislation on state market supervision. Thus, the draft Law provides for, in particular:- application of market supervision of products offered for sale online or through other means of distance sales;- extension the list of operators subject to state market supervision such as fulfilment service providers, information society service providers; - setting requirements for drawing-up a national market supervision strategy; - defining the powers of market supervision authorities in case of violations that may cause serious and irreparable risk to end user due to non-compliant products offered for sale online or through other means of distance sales; - enabling organizations representing economic operators or end users to make the agreements on joint activities with market supervision authorities;- enabling to take samples of products subject to examination (testing) by non-destructive control methods on a free-of-charge basis with return of such samples to the owner if no non-compliance was identified. In so doing, market supervision authorities are obliged to ensure proper storage and transportation of such samples; - improving procedures for the control of non-food products when they are imported into the customs territory of Ukraine, and enhancing interaction	18/02/2024

between customs authorities and market supervision authorities.

headlamps of motorcycle, ease allowable illumination standards for headlamps, stop-lamps and direction indicators, and clarify the observation luminous intensity within observation angle the same as it is specified in the Detailed Regulations of the Motor Vehicle Management Act.

K. Draft Annex 6-2 will harmonize Automatically Commanded Steering Function (ACSF), such as remote control maneuvering and risk mitigation function, with international standards.

L. Draft Annex 6-4 and 6-8 will require automatic turning on and off of headlamps to ensure the safety of driving at night, establish mandatory lighting standards for rear position lamps when daytime running lamps are turned on, and ease standards for lamps of mass-produced vehicles.

M. Draft Annex 6-11 and 6-14 will amend the exception provisions for the tell-tales of front position lamps and rear position lamps according to the requirement that interlocks rear position lamps when daytime running light is lit, and ease lamp standards for mass-produced motor vehicles.

N. Draft Annex 6-21 will add light source type and power standards of light emitting device light sources which has been added to international standards.

O. Draft Annex 5-36, 6-3, 6-5, 6-6, 6-7, 6-9, 6-10, 6-12, 6-13, 6-15, 6-16, 6-17, 6-18, 6-27, 6-28, 6-31, 6-32, 30-8, and 32-2 will ease the standards for lamps, for instance, accepting allowable deviation requirements of all lamps of mass-produced vehicles to be $\pm 20\%$.

P. Draft Annex 7-8 will delete the restriction on the amount of deceleration in the warning stage before the Advanced Emergency Braking System (AEBS) of bus and truck and special vehicle over 3.5 tons is activated.

Q. Draft Article 19 and Annex 13 will delete redundant standards for rear underrun protection attached to trucks and special vehicles over 3.5 tons and toughen test load and installation strength standards.

R. Draft Annex 16 will clarify seat belt performance standards in harmony with international standards.

S. Draft Annex 24 will ease the electromagnetic radiation standards and electromagnetic wave resistance standards of vehicle parts in accordance with the relaxation of the international standards for electromagnetic compatibility of motor vehicles.

T. Draft Article 65 and Annex 5 will revise the title of the control device for motorcycle and clarify vocabulary related to high voltage electric device.

Draft Regulatory Guide: Installation, Inspection, and Testing for

Class 1E Power, Instrumentation, and Control Equipment at Production and Utilization Facilities

Draft guide; request for comment by 19 January 2023 - The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment a draft regulatory guide (DG), DG-1419, "Installation, Inspection, and Testing for Class 1E Power, Instrumentation, and Control Equipment at Production and Utilization Facilities." This DG is proposed Revision 1 to Regulatory Guide (RG) 1.30, "Quality Assurance Requirements for the Installation, Inspection, and Testing of Instrumentation and Electric Equipment (Safety Guide 30)." DG-1419 describes an approach that is acceptable to the NRC staff to meet the regulatory requirements for installation, inspection, and testing for Class 1E power, instrumentation, and control equipment at production and utilization facilities.
