Draft Commission Implementing Regulation laying down certain uniform quality management and procedural requirements for the conformity assessment activities carried out by a notified body designated under Regulations (EU) 2017/745 and (EU) 2017/746 of the European Parliament and of the Council;

The notified draft sets out requirements for the harmonised applications of provisions for notified bodies established in Annex VII to Regulations (EU) 2017/745 on medical devices and (EU) 2017/746 on in vitro diagnostics. In particular, those provisions cover quotations, timelines for notified bodies to carry out conformity assessment activities, monitoring of notified bodies' performances as regards timelines and costs and re-certification.

Les engrais minéraux.

Arrêté du modifiant l'arrêté du 5 septembre 2003 portant mise en application obligatoire de normes

Cet arrêté interministériel a pour objet de rendre d'application obligatoire un additif à une norme portant sur les engrais minéraux

Cette mesure est une dispense d'autorisation de mise sur le marché, visée à l'article L. 255-2 du code rural et de la pêche maritime et prévue à son article L. 255-5, point 1.

Ce projet a pour objet de rendre d'application obligatoire l'amendement A2 à la norme NF U42-001-1 existante (Octobre 2011) portant sur les engrais minéraux :

Le règlement (CE) n°2003/2003 ayant été abrogé et remplacé par le règlement (UE) n°2019/1009, le présent amendement vise à mettre à jour la norme homologuée NF U 42-001-1 : 2011 et son amendement A1 qui font référence tous deux à ce règlement abrogé. Une attention particulière a été portée sur l'exigence de la conformité des engrais sous marquage CE utilisés comme intrants au respect des exigences relatives aux composants qui sont indiquées dans la colonne « mode d'obtention et composant(s) principal(aux) » des dénominations de type indiqués dans la norme NF U42-001-1/A2.

Products and commodities subject to Mandatory Standards 20/02/2026

Standards Law (Compliance with US Federal Regulations) (Amendment No. 21) 5785-2025;

The Ministry of Economy and Industry announced a new standardization reform following the Israeli Government Decision No. 3386. The reform will allow the import and production of goods in accordance with US Federal Regulations, provided the products are manufactured in Israel or the United States. The purpose of the proposed amendment is to add an alternative route for importing and manufacturing goods subject to mandatory standards. The new route relies on US Federal Regulations, reduces regulatory requirements at the import stage, and focuses on port enforcement and market surveillance, in accordance with a specific risk management system. Main points of the legislation:

- Updating the Standards Law to add the relevant legislation infrastructure for the adoption of US Federal Regulations;
- Adding Chapter D2: Adoption of US Federal Regulations requirements;
 - Adding Annex 8 regarding the adopted US Federal Regulations, including the adoption of 5 American regulations;
 - o Title 16 of the CFR - Commercial Practices;
 - o Title 21 of the CFR – Food and Drugs;
 - o Title 29 of the CFR - Labor;
 - o Title 49 of the CFR Transportation;
 - o Title 40 of the CFR Protection of the Environment.
 - Adding Annex 9 (the table currently has no content) regarding secondary legislation referring to a standard, a mandatory standard, or establishing a provision that restricts the production, import, sale, or use of a product to which a mandatory standard applies.

Standard specification for deformed and plain carbon steel bars for concrete reinforcement;

This Technical Regulation specifies the mandatory requirements for deformed and plain carbon steel bars used for concrete reinforcement, whether supplied as straight cut lengths or in coils. It covers requirements related to materials and manufacturing, chemical composition, transverse rib geometry and measurements, and mechanical properties including yield strength, tensile strength, elongation, and bending. The regulation also defines dimensional requirements, mass per unit length and permissible tolerances, as well as provisions for testing, sampling, number of tests and retesting, inspection procedures, rejection and appeal, marking, and labelling. This document aims to ensure the quality, safety, and fitness for use of carbon steel reinforcing bars in concrete structures.

G/TBT/N/LTU/53 22/12/2025	Lithuania	<i>Tobacco, tobacco products and related equipment (ICS code(s): 65.160)</i>	20/02/2026
		Draft Law on Control of Tobacco, Tobacco Products and Related Products of the Republic of Lithuania on amendment of Article 85, 9, 93, 94, 99, 910, 911, 17 and 26 No. XVP-447(3),	
		The Draft Law introduces a requirement to display the contact details of the national smoking-cessation telephone line (hereinafter – the Quitline) on relevant tobacco product packaging, electronic cigarette leaflets, and in retail sales areas. It also clarifies the administrative procedures for evaluating tobacco product notifications submitted through the EU-CEG portal, introduces state fees for these services, and sets standardized timelines for evaluation and market placement. Overall, the goal is to expand the visibility and use of free smoking-cessation support services, enhance public awareness of available assistance, and strengthen regulatory oversight. By improving access to these services, the proposed measures are expected to increase the effectiveness of smoking-cessation efforts and contribute to reducing nicotine dependence, along with the broader health, social, and economic harms associated with tobacco use.

		Resolución 2548, por la que se prohíbe el uso de los ingredientes Trimethylbenzoyl Diphenylphosphine Oxide (TPO) y la N,N-dimetil-p-toluidine (DMPT) en productos cosméticos	
		La Resolución 2548 tiene por finalidad prohibir el uso de los ingredientes Trimethylbenzoyl Diphenylphosphine Oxide (TPO) y la N,N-dimetil-p-toluidine (DMPT) en Productos Cosméticos que se comercialicen en la Comunidad Andina.	
G/TBT/N/ZAF/268 22/12/2025	South Africa	<i>Liquor products</i>	20/02/2026
		Amendments to the Regulations of the Liquor Products Act, Act 60 of 1989 and the Wine of Origin Scheme REGULATIONS AND WINE OF ORIGIN SCHEME AMENDMENTS The following amendments are included in the draft regulation and scheme amendments (Annexure A and B): inclusion of a definition for "wort", amend the maximum alcohol content of kombucha and sugar fermented alcoholic beverage to make provision for the addition of a spirit, amend the definition of a sugar fermented alcoholic beverage by properly defining the use of other sugars of plant origin not provided for in the Act and the regulations to exclude existing classes of liquor products and prevent overlap with classes like cider, alcoholic fruit beverages, etc, which was the unintended consequence of the previous wording that only referred to sugar of plant origin. Clarify that a class designation on the main label must be indicated horizontally, amendment of Table 6 to update the list of additives to liquor products, including beer and other fermented beverages, make provision for the addition of salt to an alcoholic fruit beverage and the subsequent indication of flavourings on the label, deletion of the Moscato class, amendment of Table 1 to specify the cultivars that may use the cultivar descriptor Moscato, specify the conditions there-to and ensure alignment with	

international requirements, make provision for a definition of "field blend" and remove the mandatory IBU requirement in the definition of beer.

G/TBT/N/USA/2254 22/12/2025	United States of America	<p><i>Environmental protection (ICS code(s): 13.020); Occupational safety. Industrial hygiene (ICS code(s): 13.100); Nuclear energy engineering (ICS code(s): 27.120)</i></p> <p>Incorporation by Reference of Institute of Electrical and Electronics Engineers Standard 603-2018;</p> <p>Proposed rule and draft guidance; request for comment - The U.S. Nuclear Regulatory Commission (NRC) is proposing to amend its regulations to incorporate by reference the Institute of Electrical and Electronics Engineers (IEEE) Standard (Std) 603-2018, "IEEE Standard Criteria for Safety Systems for Nuclear Power Generating Stations." The IEEE Std 603-2018 is the most recent version of IEEE Std 603 that addresses the power, instrumentation, and control safety systems for nuclear power reactors. This amendment also incorporates editorial changes that do not change the technical information. The NRC plans to hold a public meeting to promote full understanding of the proposed rule and facilitate public comments.</p>	17/02/2026
G/TBT/N/UKR/364 22/12/2025	Ukraine	<p><i>Medicines</i></p> <p>Order of the Ministry of Health of Ukraine No. 1613 "On Approval of Amendments to Certain Regulatory Acts of the Ministry of Health of Ukraine" of 24 October 2025;</p> <p>This Order has been developed pursuant to clause 4 of the Section II of the Law of Ukraine No. 4239 of 12 February 2025 "On Amendments to Certain Laws of Ukraine Regarding the Peculiarities of State Registration of Medicines That Can Be Purchased by an Entity Authorized to Carry Out Procurement in the Healthcare Sector and on the Regulation of Certain Issues Related to the Sale of Medicines" and aims to improve the conditions for functioning of the national healthcare procurement system financed from the state budget and to ensure the consistency of the acts of the Ministry of Health with the legislation of Ukraine.</p> <p>The proposed amendments are intended to address practical issues related to the state registration of medicines through simplified procedures, facilitate expanded access of patients to new medicines eligible for procurement by the State Enterprise "Medical Procurement of Ukraine" using state budget funds within the framework of healthcare programmes and centralized public health measures, and establish the legal conditions necessary to ensure the availability in Ukraine and the continuity of use of such medicines.</p>	21/01/2026
