Číslo/Dátum	Notifikujúca strana	Charakteristika notifikácie	Pripomienková doba
G/TBT/N/USA/1831 07/02/22	United States of America	<p><i>Emissions; aircraft engine pollution</i> ICS codes: 03.120 (<i>Quality</i>), 13.020 (<i>Environmental protection</i>), 13.040 (<i>Air quality</i>), 19.020 (<i>Test conditions and procedures in general</i>), 49.020 (<i>Aircraft and space vehicles in general</i>), 49.050 (<i>Aerospace engines and propulsion systems</i>);</p> <p>Control of Air Pollution From Aircraft Engines: Emission Standards and Test Procedures G/TBT/N/USA/1831 Proposed rule - The Environmental Protection Agency (EPA) is proposing particulate matter (PM) emission standards and test procedures applicable to certain classes of engines used by civil subsonic jet airplanes (those engines with rated output of greater than 26.7 kilonewtons (kN)) to replace the existing smoke standard for aircraft. These proposed standards and test procedures are equivalent to the engine standards adopted by the United Nations' International Civil Aviation Organization (ICAO) in 2017 and 2020 and would apply to both new type design aircraft engines and in-production aircraft engines. The EPA, as well as the United States Federal Aviation Administration (FAA), actively participated in the ICAO proceedings in which these requirements were developed. These proposed standards would reflect the importance of the control of PM emissions and U.S. efforts to secure the highest practicable degree of uniformity in aviation regulations and standards. Additionally, the EPA is proposing to migrate, modernize, and streamline the existing regulations into a new part. As part of this update, the EPA is also proposing to align with ICAO by applying the smoke number standards to engines less than or equal to 26.7 kilonewtons rated output used in supersonic airplanes.</p>	04/04/22
G/TBT/N/USA/1832 07/02/22	United States of America	<p><i>Labeling claims on meat (beef and pork) products</i> ICS codes: 01.080.10 (<i>Public information symbols</i>), 67.120.10 (<i>Meat and meat products</i>);</p> <p>Notice of Request for a New Information Collection: Analyzing Consumers' Value of "Product of USA" Labeling Claims G/TBT/N/USA/1832 Notice and request for comments - In accordance with the Paperwork Reduction Act of 1995 and Office of Management and Budget (OMB) regulations, the Food Safety and Inspection Service (FSIS) is announcing its intention to collect information using a web-based survey/experiment to help gauge U.S. consumer awareness and understanding of current "Product of USA" labeling claims on meat (beef and pork) products and U.S. consumer willingness to pay (WTP) for meat products labeled as "Product of USA" using the current and potentially revised definitions of the claim. FSIS also intends to collect information on U.S. consumer understanding of other "USDA" labeling on meat products, such as the "USDA Choice" label and the USDA mark of inspection. This is a new information collection with an estimated annual burden of 1,815.1 hours.</p>	04/04/22
G/TBT/N/EU/870 08/02/22	European Union	<p><i>Fertilising products</i> ICS codes: 65.080 (<i>Fertilizers</i>);</p>	09/04/22

Draft Commission Delegated Regulation amending Regulation (EU) 2019/1009 of the European Parliament and of the Council as regards the requirements applicable to EU fertilising products containing inhibiting compounds and the post-processing of digestate

G/TBT/N/EU/870 Regulation (EU) 2019/1009 on fertilising products has been adopted in June 2019 and will start applying as of July 2022. While preparing the transition to the new harmonisation rules, both EU Member States and interested stakeholders informed the Commission on the need to adapt some technical provisions in its annexes. Some of the most important amendments concern: The REACH registration of polymers and magnesia; The post-processing of digestate; The efficiency of products containing inhibiting compounds.

Draft Commission Implementing Regulation amending Implementing Regulation (EU) 2020/683 by introducing and updating, in the templates for the information document, approval certificate and certificate of conformity in paper format, the entries as regards vehicle safety systems, and adjusting the numbering system for the approval certificates

G/TBT/N/EU/871 The templates for the information document, contained in Annexes I and II to Commission Implementing Regulation (EU) 2020/683, need to be modified to include the information relevant for the approval of vehicles fitted with systems mandated by Regulation (EU) 2019/2144 and the implementing and delegated regulations adopted pursuant to it. The respective information has also to be reflected in the templates for the type-approval certificate and the certificate of conformity in paper format. In addition, the numbering system for the type-approval certificates, as laid down in Annex IV to Regulation (EU) 2020/683, has to be adjusted.

Chile

Alimentos para consumo humano

Propuesta de Modificación del Decreto Supremo N°977/96, Reglamento Sanitario de Alimentos del Ministerio de Salud, Título XVII de los azúcares y de la miel, Párrafo I de los azúcares, Artículo 383

G/TBT/N/CHL/588 En los últimos años se ha podido observar en el mercado chileno de alimentos, la presencia de dos nuevos azúcares de baja energía: “Alulosa” y “Tagatosa”. La presente propuesta tiene por objetivo de abordar la regulación sanitaria sobre éstos, en el contexto de la regulación alimentaria nutricional vigente en el país, y teniendo en cuenta sus características químicas, la evidencia sobre su efecto metabólico, y también lo dispuesto sobre estos ingredientes en regulaciones alimentarias de otros países, entre otros antecedentes. La presente propuesta, es un texto elaborado por el departamento técnico del Ministerio de Salud, teniendo en cuenta una propuesta presentada por un grupo de trabajo de diversos sectores, incluyendo el sector de la industria alimentaria nacional.

Proposed Control of Chemicals Under Review by Multilateral Environmental Agreements, (See Attachment)

G/TBT/N/SGP/63 NEA is proposing to control 5 new chemicals as Hazardous Substance (HS) under the Environmental Protection and Management Act (EPMA) and EPM (Hazardous Substances) Regulations. These 5 new chemicals are identified by the Stockholm Convention and Rotterdam Convention for review. The proposed control of the 5 chemicals under the EPMA and EPM (HS) Regulations is planned to be gazetted by Apr 2022. The licensing of the chemicals will take effect in 2023. Importers, manufacturers and distributors of these chemicals and products containing these chemicals will then be required to apply for a HS licence/permit for the import, export, sale, store and use of the chemicals. The 5 chemicals identified for control are as follows: Conventions Stockholm Convention (SC) Rotterdam Convention (RC) Proposed Chemicals for Control Industrial Chemicals (i) Dechlorane Plus (DP) (ii) UV-328 Industrial Chemicals / Pesticide/ Insecticides / Herbicides (i) Amitrole (ii) Nonylphenol (NP) and Nonylphenol Ethoxylates (NPE) (iii) Iprodione

G/TBT/N/USA/1833 08/02/22	United States of America	<p><i>Miscellaneous gas products</i> ICS codes: 13.020 (<i>Environmental protection</i>), 97.100 (<i>Domestic, commercial and industrial heating appliances</i>); Energy Conservation Program: Proposed Determination of Miscellaneous Gas Products as a Covered Consumer Product G/TBT/N/USA/1833 Notification of proposed determination and request for comment - The U.S. Department of Energy ("DOE") has tentatively determined that miscellaneous gas products, which are comprised of decorative hearths and outdoor heaters, qualify as covered products under Part A of Title III of the Energy Policy and Conservation Act, as amended ("EPCA"). DOE has tentatively determined that coverage of miscellaneous gas products is necessary and appropriate to carry out the purposes of EPCA, and that the average U.S. household energy use for miscellaneous gas products is likely to exceed 100 kilowatt-hours per year.</p>	08/04/22
G/TBT/N/USA/1834 08/02/22	United States of America	<p><i>Computer room air conditioners (CRACs)</i> ICS codes: 03.120 (<i>Quality</i>), 13.020 (<i>Environmental protection</i>), 19.020 (<i>Test conditions and procedures in general</i>), 23.120 (<i>Ventilators. Fans. Air-conditioners</i>); Energy Conservation Program: Test Procedure for Computer Room Air Conditioners G/TBT/N/USA/1834 Notice of proposed rulemaking and request for comment - The U.S. Department of Energy (DOE or the Department) proposes to amend its test procedure for computer room air conditioners (CRACs) to incorporate by reference the latest draft version of the relevant industry consensus test standard. DOE also proposes to adopt the net sensible coefficient of performance (NSenCOP) metric in its test procedures for CRACs. Additionally, DOE proposes to amend certain provisions for representations and enforcement. DOE welcomes written comments from the public on any subject within the scope of this document (including topics not raised in this proposal), as well as the submission of data and other relevant information.</p>	08/04/22
G/TBT/N/DNK/125 09/02/22	Denmark	<p><i>The notification covers recharging points accessible to the public.</i> Forslag til lov om infrastruktur for alternative drivmidler til transport. G/TBT/N/DNK/125 The legislative proposal means that for recharging at publicly accessible recharging points located on public land or which have received public subsidies, operators of recharging points shall accept electronic payments via terminals or devices used for payment services, including at least payment card readers with or without a contactless function, cf. § 7(1) of the Act. The legislative proposal allows operators of publicly accessible recharging points with a power of less than 50 kW to choose to offer the provision of recharging services (roaming) as an exception to the general rule of payment via payment card readers, cf. § 7(2) and § 7(3) of the Act. The operator of the recharging point may choose whether to offer bilateral roaming, see § 8 of the Act, or whether hub-based roaming is to be offered, see § 9 of the Act. The legislative proposal authorizes the Minister for Transport to lay down rules requiring operators of publicly accessible recharging points to show the ad hoc charging price and the total purchase price in a digital display, cf. § 10 of the Act.</p>	22/03/22

G/TBT/N/JPN/726 09/02/22	Japan	<p>Revisions of the Notification of the Ministry of Economy, Trade and Industry (METI) under the Act on the Rational Use of Energy</p> <p>G/TBT/N/JPN/726 These revisions of the standards under the Act on the Rational Use of Energy include energy consumption efficiency standards for targeted fiscal year (FY2027 or FY2029), measurement method, etc. of the products listed in column 4.</p>	10/04/22
